Internet Use Policy

Guest Internet is available for club members' use at Javanon Center (12411 Rehl Rd, Louisville KY 40299). All major internet applications such as web browsing, email, Transparent VPN, SSL, DNS, NTP, etc. are allowed and are not restricted in use in any way. The remainder of applications, which are considered unnecessary, are blocked – such as: peer to peer file sharing, FTP, telnet, SSH, etc.

Club owned computers may not be used for Internet access by anyone but Coaches, Club designated administrators and management. Players under the age of 21 may not view Internet content on Club owned computers.

To use the Internet, Players and Parents must bring a laptop or desktop computer which they personally own.

There is no difference in using the Guest Internet at Javanon Center and using the Internet from your home. Parents are responsible for themselves and their children – the sites they visit; the content they access; and the repercussions (if any) of their Internet usage. Any child under the age of 21 accessing the Guest Internet at Javanon Center must have a parent or guardian present and monitoring their usage for appropriateness. Javanon Soccer Club has no responsibility or liability in regards to the Internet or use of the Internet.

The sole remedy for any issue in regards to the Guest Internet at Javanon Center shall be that Guest Internet access will be removed in its entirety from Javanon Center.

One copy of this agreement must be signed by each player under the age of 21 and the parent(s) or legal guardian(s) of said player.

By signing below, I/We agree to abide by the terms of this agreement and that no event or circumstance shall Javanon Soccer Club be held accountable, liable or otherwise involved in said event or circumstance in relation to the Internet and its use at Javanon Center.
